What is ACCESS Enterprise and what benefits result from its use? What products are supported?

ACCESS Enterprise is a software package that offers a managed deployment of Defender devices, F100, F150, and F200. Benefits are:

- Control device configurations and corporate security policies that determine how devices can be used.
- Provide help desk support when necessary for end users who have problems authenticating.
- Perform data recovery operations on a device for audit and compliance reasons.
- Provide optional antivirus protection on the Defender devices.
- Provide remote issuance of devices
- Adds remote revocation of devices when combined with ACCESS Enterprise Server installation

Support is provided for the Defender Collection of devices, including the F100, F150, F200 + Bio flash drives.
